PLANETARY EMERGENCY

An email received today begins:

Dear Doctors of Oriental Medicine and Qigong Practitioners,

[Note from Gary: Last year, as we travelled through Portugal and Spain, I was dismayed and alarmed by the proliferation of 5G towers. In the mountain village of Orgiva, Spain, large public banners against 5G rallied my internal alignment with the cause of halting this potentially disastrous technology.

After nearly becoming a conspiracy theorist regarding 5G, plots to dominate the planet, global satanic activities, and media collusion and censorship, I came to a more peaceful plateau in myself and realized that activism alone does not bring sustainable solutions.

Now, instead of expending energy in well-intended but ineffective attempts to move readers to action, I am content to apply my energies instead to being a conscious creator in service to the source of life. In the meditation, 'Progress of the Soul,' each day I move

energies of the One Light through the core of the earth, expanding outward to encompass the planet in a cloud of light. It is, I feel, the most powerful thing I can do for the earth and her inhabitants. I have also signed petitions, donated, etc., and will continue to act on the guidance of intuition. Choosing to be informed and share what matters, here is the impassioned appeal received today by email:]

From Arthur Firstenberg:

'SpaceX is in process of populating the Earth's ionosphere with more than 30,000 5G communication satellites, which it is launching at the rate of 120 satellites per month. I am writing to you, who work with qi, to ask you to please help me mobilize this world to stop this from happening. The ionosphere controls the global electric circuit that atmospheric physicists study, which is the same as the circuit of qi that flows at all times between sky and earth, and circulates through our bodies on its way from sky to earth, as described in the Yellow Emperor's Classic of Internal Medicine.

'We cannot pollute the source of qi with billions of electronic frequencies without destroying all life on Earth. The general public does not understand this, nor does Elon Musk, so I am writing to you, who should be able to understand why this is an emergency. SpaceX is already recruiting customers and plans to begin "beta testing" of its first 840 satellites in September of this year. There isn't much time.

'In this age of specialization, it is the rare person who

can see the whole picture. I find myself in the peculiar position of having studied all of the pieces of the puzzle. I have a degree in mathematics and physics from Cornell University. I went to medical school at the University of California, Irvine. I studied shiatsu and kiatsu with masters, and I studied acupuncture theory and possess acupuncture textbooks from China and Korea. I have studied aikido and qigong, and I am a certified practitioner of the Rubenfeld Synergy Method, which is partially energy work. For over two decades, I have also been helplessly monitoring the effects of communication satellites on humans, birds and wildlife.

'In an attempt to warn the world about what is happening, I wrote *The Invisible Rainbow: A History of Electricity and Life* (White River Junction, VT: Chelsea Green 2020), which is selling well, and I co-authored the *International Appeal to Stop 5G on Earth and in Space*, which has hundreds of thousands of signatures. But it still seems too little, too late.

'Which is why I am writing to all of you. I have compiled a list of 2,553 acupuncturists and 1,503 qigong practitioners around the world that I am sending this email to. Some of you have read my book or signed the 5G Space Appeal, but most have not. I am sending this email to all of you, in the hope that you will realize what is at stake and that together we can start a groundswell of opposition that will spread to millions. You all have colleagues, students and clients and this can spread rapidly, once people understand how much of an emergency this is.

'I am a healer, not an organizer. We need a lot of people, and many kinds of expertise. Please pass this message on and contact me if you would like to be part of the team. Please help save this planet.'
